QUESTION: Do you agree with Educational Ceilings?

Yes we agree with the general concept of Ceilings on Ed-

Are you opposed to the Ceiling as imposed by the Ontario Government? QUESTION:

ANSWER:

Yes. This ceiling is inflexible and against the best interests of ALL students. Surely we all must understand that as society (and education) changes so will the INDIVID-UAL needs and teaching methods change. Arbitrary ceilings allow little flexibility in adjusting to the needs of ALL students.

QUESTION: Do you agree that economy in education is necessary?

ANSWER:

Yes, remember we too are taxpayers. We feel that costs should be as low as possible and still do an effective job of educating the students of Ontario. As taxpaying members of society, we believe that PROPERTY TAX cannot support the burden of education cost. The Province must equalize the burden of education across Ontario so that no one area shares a greater burden than another.

It's a food that's been around for over two thousand years, yet with its tart, refrashing flavor, it's as new as tomorrow. It tastes great and it's good for you! It's an instant dessert, a salad topper, quick breakfast, a mid-day or bedtime snack. That's Beatrice Yogur!—many flavors, Swiss style. Cook and bake with it, too. For grown-ups and children alike, it's easy to digest, is an excellent source of protein and calcium, with a low fat content that makes it a dieter's ACTION-SLIM food with 501.
